Improve recoveries using
Albion Process™ atmospheric
leaching

by Glencore Technology [Follow](#)

Free

Improving recoveries in base and precious metals by using Albion Process™ atmospheric leaching

Join our FREE webinar.

When: Wednesday 13th May 2020 from 3:00 – 5:00 pm (AEST Australian Easter Standard Time)

<https://www.eventbrite.com/e/improve-recoveries-using-albion-processtm-atmospheric-leaching-tickets-103764339934>

Please select the time zone that fits best for you when registering.

If you missed PDAC presentation, you can't miss this webinar as you will have the opportunity to learn how Albion Process™ atmospheric leaching is achieving high recoveries in base and precious metals, and unlocking more value from refractory ores, with lower capital and operating costs. All this while tolerating wildly fluctuating feeds.

Find out –

- How it works
- What's the process in setting it up and
- Would it work with your feed

Please note that our webinars are FREE, however Registration is mandatory.

Once you register, we will send you the log in details closer to the event.
